## Take an Hour for Wellness Begins This Week

All Newport News Shipbuilding employees are eligible to receive a FREE flu shot and health screening as part of this year's "Take an Hour for Wellness" (TAH) program. TAH, part of HII's "BeWell for Life" wellness programs, will begin Tuesday, Sept. 15 and run through the end of November.

The health screening will measure blood pressure and body composition and also includes a finger stick to test total cholesterol, HDL cholesterol and glucose. All results are 100 percent confidential and are only shared with the employee following the screening.

Employees who are planning to get both a flu shot and health screening can decrease their wait time by scheduling an appointment in advance via the TAH online scheduling system. Employees who receive a health screening will also receive a free tote bag. Employees who opt to only get a flu shot do not need an appointment. Visit [www.huntingtoningalls.com/tah](http://www.huntingtoningalls.com/tah) to schedule an appointment or for additional information. Email [interactivehealth@hii-nns.com](mailto:interactivehealth@hii-nns.com) for questions.

## The Apprentice School Participates in White House Summit

The Apprentice School at Newport News Shipbuilding, and the Haley Reeves Barbour Maritime Training Academy at Ingalls Shipbuilding participated in the White House Summit on Apprenticeship last week. The event brought together employers, community colleges, non-profits, labor leaders and others who are helping to promote apprenticeships across the country. **Everett Jordan**, director of Education at Newport News' Apprentice School, participated in a congressional panel on the topic following the summit. Jordan was among five apprenticeship leaders who were invited to provide a brief overview of their programs and address questions from members of Congress and their staff. Garry Mercer, Ingalls' manager of the apprentice program, also attended the summit. **...READ ON PG 3**

## AMSEC Wins U.S. Navy Engineering and Technical Services Contract

On Sept. 9, Huntington Ingalls Industries announced AMSEC LLC, the subsidiary operating under Newport News Shipbuilding, was awarded a contract by the U.S. Navy to provide support services to Navy ships on behalf of the Mid-Atlantic Regional Maintenance Center.

AMSEC was one of three contractors awarded a multiple task order, cost-plus-fixed-fee, indefinite-delivery/indefinite-quantity contract for hull, mechanical and electrical engineering; analytical support; logistics support; and other technical support. The estimated ceiling amount of the contract is \$83 million. Contract funds will be awarded on a competitive task order basis among the awardees.

"AMSEC has more than 34 years of experience delivering complete hull, mechanical and electrical services and alteration installation team solutions to the U.S. fleet," said **Harris Leonard**, president of AMSEC Operations. "We will build on our record of superior service to our military customers, including the Mid-Atlantic Regional Maintenance Center and the naval fleet they support."

## Foundry Inspection Team Recognized for Working Safe

In August, the Foundry Inspection Team was recognized by leadership for working safe. The team celebrated with a luncheon Aug. 27.

“We are not just a team, we are a family,” said **Karen Harding** (A572). “We strive to be safe and go home each day the same way we came in. Other things that our team does to ensure the safety of each other and others around us is to contribute and stay engaged in safety discussions, remain aware of our surroundings and changing conditions, report any unsafe conditions, and avoid taking unnecessary risks. Our foreman is strong on safety and keeps us informed. Safety is a priority that is taken seriously.”

The team has been accident-free for the past three years.

Superintendent **Kent Price** added, “I believe the key to the success of this team lies in the highly professional people who know their jobs and know how to perform them safely.”

## Workforce Diversity Magazine Features NNS Shipbuilder

**Mary Perkinson**, engineering manager for Newport News Shipbuilding, was recently featured in *Workforce Diversity*'s magazine. Perkinson manages the NNS Crane Long Range Strategic Plan that documents the crane replacement strategy and budget.

“I oversee all aspects of crane project implementation, including the documentation, budgeting, scheduling, construction verification, commissioning, endurance testing, inspection, load testing, and certification of completed crane projects,” Perkins said. “Being part of a process that takes raw materials and makes them into a finished product is exciting. The process starts with an idea that then becomes a design, which fixes a problem or serves a need. “All along the way, important decisions are made such as selecting the best materials to use for a safe, quality product while staying within the projected costs and delivery.” Visit [www.eop.com](http://www.eop.com) from a home computer to read the entire article.

## ISCVN Team is Looking for Suggestions

On Aug. 11, **Chris Miner**, vice president of In-Service Aircraft Carriers, and the division's engagement champions spoke to shipbuilders working on USS *Enterprise* (CVN 65) and USS *Abraham Lincoln* (CVN 72) about the new “In-Service Carrier Engagement Comment Line.” The ISCVN Comment Line (380-7777) is open to all employees to provide suggestions and concerns related to the ISCVN division.

“The purpose of the walkabout was to let employees know that their opinions count and their feedback is important,” said Miner. “The ISCVN Engagement Champions are dedicated to keeping the work environment safe, improving communication and supporting every shipbuilder.”

"Newport News Shipbuilding employs thousands of military veterans and military reservists," said Andy Schwartz, V-3 program manager. "They are proud supporters of all branches of the U.S. military and are committed to hiring candidates with prior military service and as well assisting their veteran and reservist employees."

## HOLA to Host Hispanic Heritage Month Event

Newport News Shipbuilding will recognize National Hispanic Heritage Month Sept. 15 - Oct. 15. The month is recognized to honor the contributions made by Hispanic and Latino Americans to the United States and to celebrate their heritage and culture.

Hispanic Heritage Month roots go back to 1968 and begins on Sept. 15 each year to coincide with independence day celebrations for five Latin American countries: Costa Rica, El Salvador, Guatemala, Honduras and Nicaragua. Mexico, Chile and Belize also celebrate their independence days during this month. In 1989, the commemoration was expanded from one week to a full month. President George H.W. Bush said, "Perhaps no single ethnic group has had as profound an impact upon our nation as Hispanic Americans. Mexican Americans, Cuban Americans, Puerto Rican Americans, and other men and women of Hispanic descent, have not only demonstrated the power of individual enterprise but also added to the cultural diversity that so enriches American life."

Newport News Shipbuilding's theme for the 2015 observation of Hispanic Heritage Month is, "Many Stories, Many Backgrounds, One American Spirit."

In commemoration of Hispanic Heritage Month, the Hispanic Outreach Leadership Alliance (HOLA) Employee Resource Group will host a celebration from 4:30 to 6 p.m. on Tuesday, Sept. 29 in Bldg. 520-6 - James River Room. The after-work event is open to all shipbuilders and will include light refreshments, music and country displays. NNS President **Matt Mulherin** will be the guest speaker.

Visit the HOLA website for additional information or to view a PDF of NNS' 2015 Hispanic Heritage Month poster.

## Bldg. 903 Fire Wardens Visit NNS Firehouse

In August, the fire wardens of Bldg. 903 visited the company's firehouse to encourage the sharing of information and increase collaboration with the firemen of Newport News Shipbuilding.

**Tim Basham**, lead fire warden for Bldg. 903-3, planned the tour. "I thought it would be a great opportunity for the fire wardens on my floor to meet with Newport News Shipbuilding firemen to share fire-safety knowledge. The tour was an opportunity for both groups to learn from each other," he said. "Practices were shared and relationships were built."

Following the firehouse tour, NNS Fire Marshal **Troy Long** attended the group's second quarter fire warden meeting. "I was able to reiterate my impressions of the firehouse visit," he said. "The theme of the visit was 'safety first' and I'm very confident that Bldg. 903's fire wardens are doing what it takes to keep all the employees in the building as safe as possible in an emergency."

## The Apprentices School cont.

CONTINUED FROM PG 1

"It was encouraging for experts on apprenticeship to be convened for the summit and to hear members of President Obama's cabinet and Vice President Biden articulate the importance of expanding apprenticeships across our great nation," Jordan said.

The White House Summit on Apprenticeship is focused on creating a core set of national, industry-specific apprenticeship training models and building momentum for more youth apprenticeships. The attendees were among 140 organizations who have signed on to be ApprenticeshipUSA Leaders. The U.S. Department of Labor also announced during the event a new National Apprenticeship Week, which will begin Nov. 2.

"America was built on the skills these apprentices are learning today, and Ingalls is proud to play a part in that effort," Mercer said. "These skills are timeless and vital to the future of our country. It's an honor to be included with this large contingent of apprenticeship leaders at this summit."

## "Fear 2 Freedom" Volunteer Event

"Fear 2 Freedom" (F2F) is a global not-for-profit organization dedicated to restoring the lives of those wounded by sexual assault. F2F partners with universities, hospitals and communities to provide after-care kits to those affected by rape, child abuse, domestic violence or sex-trafficking.

Newport News Shipbuilding employees, family members and friends are needed from 10 a.m. to 2 p.m. on Saturday, Sept. 26 to participate in an NNS Volunteer Day with F2F. Volunteers will prepare kits of supplies offered to victims of sexual assault, which will include folding clothes and prepping "Freedom Bears." F2F is located on Enterprise Drive in Newport News. For more information view the flier or contact **Judy Fundak** (K18) at 380-3011. Visit [www.fear2freedom.org](http://www.fear2freedom.org) from a home computer for more information about F2F.

## ISO Audits Planned for Next Week

Newport News Shipbuilding will undergo a certification audit of its Environmental Management System (EMS) and a surveillance audit of its Quality Management System (QMS) Sept. 21-25. The American Bureau of Shipbuilding Quality Evaluations (ABS-QE) will conduct the two audits. The audits will continue as an "integrated" approach in evaluating key areas of these two management systems. This means that personnel involved in discussions with the auditors will likely be questioned on both quality and environmental aspects of their work.

### Environmental Management Systems

All parts of the ISO standard 14001 will be audited. Employees may be stopped by auditors and interviewed about general awareness of the company's environmental policy or how their job could affect the environment. Employees can refer to their green ISO 14001 badge cards or the O27 Environmental, Health and Safety Yardnet page as a reminder of the shipyard's environmental policy.

NNS is looking forward to another successful audit to maintain the shipyard's ISO 14001 certification for the Environmental Management System. The shipyard was originally awarded in 2003 and was renewed in 2006, 2009 and in 2012. Contact **Dwain Jenkins** (O27) at 534-4066 for questions.

### Quality Management Systems

The audit team will review work documents associated with many of the areas of the shipyard, including records for equipment calibration, training, production control, product testing, internal audits, and corrective and preventive actions. Auditors may also request to randomly interview employees in both nuclear and non-nuclear work areas about work procedures to evaluate their work practices, overall awareness of Newport News' quality management policies and the knowledge of the impact their work has. Employees should answer questions about how they normally accomplish their work.

During the last audit, several people and departments were asked about their work processes. Managers, general foremen and supervisors should emphasize to employees the importance of having knowledge of their work procedures and working to authorized procedures and drawings.

A successful audit will maintain the shipyard's ISO 9001 certificate for the Quality Management System. The shipyard was first certified to ISO 9001 in 1993 and has renewed the certification every three years since. For more information, contact **Tony Burger** (O04) at 534-3222.
