

I am not

TOO SHORT.

About Face

Rethink what you think.

“When you’re little and you’ve been picked on, you’ve got a choice. Cry about it, or get over it. Being short has been a blessing. I feel like I was made to work at the shipyard. Being able to get in a lot of tight spaces as a welder has helped my career. It’s been a challenge, and I enjoy the challenge.”
