

I'm not a

PRODUCT OF MY ENVIRONMENT

About Face

Rethink what you think.

“Growing up in downtown Newport News, I heard all the labels. ‘He stays in the hood.’ ‘He’s never going to be anybody.’ ‘He’s probably going to try to rob somebody.’ We might not have the best of things. Our situation may not be the best. But I can rise above. I can be better. I can show someone I am not what you think. The more you get to know a person, you’ll see that stereotypes start disappearing because everybody is different.”
